All **ARPIN**'s make-up and shaving mirrors are offered in two options:

- either with a standard magnifying 3 mm thick crescent shaped glass available in 3 magnifications powers: 3 dioptries (X4) , 4 dioptries (X7) or 6 dioptries (X9) . Silvering guaranteed 3 years.

- or with an optical distortion-free lens (10 mm thick glass machined and polished in a similar way to that of camera or telescope lenses). Magnification 4 dioptries. The ultimate in clarity and image quality. Silvering guaranteed 10 years.

Cour de bretagne, 99 Rue du Faubourg du Temple, F-75010 Paris– France
